

EASIER COMPLIANCE™

Do you import drug or natural health products?

Are you testing your imported natural health products more than you need to?

Are you testing your imported drug products when you could utilize Unique Identifiers?

Are you releasing your imported products as quickly as you'd like?

Our Services Include:

Contact us for a review of your imported drug and/or natural health products (NHPs) to take advantage of reduced GMP requirements for certain types of products.

Quality & Compliance Services Inc. (Q&C®) may reduce your lab costs and could potentially speed up your time to market.

Q&C® offers a wide range of compliance services to support pharmaceutical and natural health products. If lab testing is required, Q&C® can provide cost-efficient service and release your products fast.

To find out how you can save money on lab costs, call Q&C® at **1-877-877-5152, ext. 210.**

All information you provide will be treated with absolute confidentiality.

SPECIAL OFFER

Analytical Testing Program Review for \$100 per product

We will:

Review your imported DRUG product for potential use of Unique Identifiers in lieu of chemical ID testing, eliminating the need for full testing

Provide an annual confirmatory test review

Recommend a testing schedule

Provide a concise report outlining our recommendations
